Glossary

Throughput Number of requests completed in a time interval.

The time that passed to perform the request and receive full response. **Response Time**

The time from sending the request, processing it on the server side, to the time the client received the first Latency

byte.

₹B About BlazeMeter

BlazeMeter offers a cross-enterprise test automation framework for the entire technical team throughout the product development lifecycle. Developers, DevOps, Ops and QA Engineers can run Continuous or "On Demand" testing for APIs, mobile apps and websites.
